

PITTSBURGH VISION ZERO SUMMIT

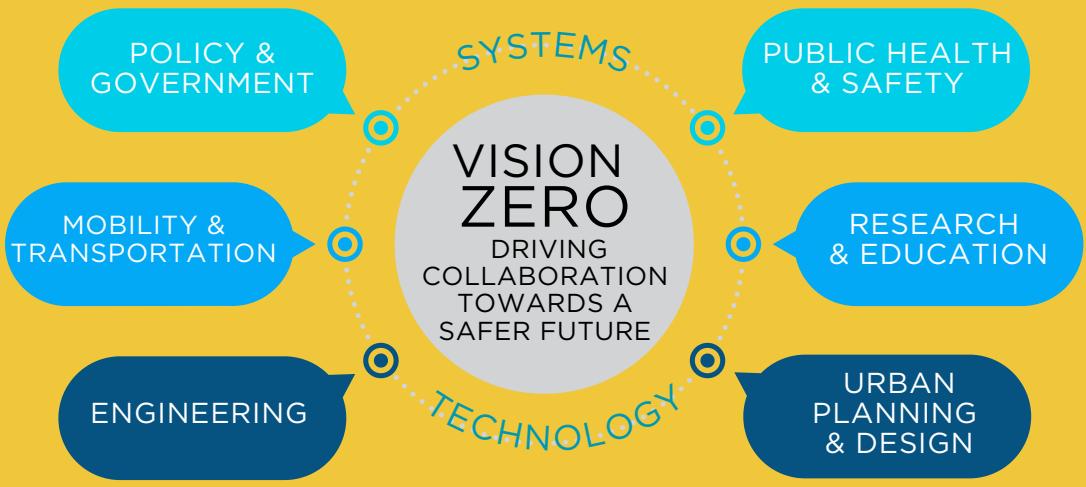

BikePGH and the City of Pittsburgh are proud to present the first annual Pittsburgh Vision Zero Summit, bringing together a multidisciplinary coalition of partners with the goal to eliminate traffic fatalities and serious injuries on our city streets.

Mayor Gainey’s 2024 adoption of a formal Vision Zero policy has placed the Steel City among fewer than 60 others who have made this bold commitment. Collaborative and boundary-spanning leadership will be needed as we implement system-level solutions to traffic violence, and further position Pittsburgh as a model for safety, sustainability, and equitable transportation.

SAVE THE DATE: OCTOBER 17, 2025

Sponsors of this inaugural event will have the opportunity to engage with more than 100 elected, government, corporate and community leaders and contribute to discussions that will shape the future of Pittsburgh's streets.
